

EDUCATION

- **Siddaganga Institute of Technology** Nov 2022 - Present
Bachelor of Engineering in Computer Science | GPA: 8.96/10
Tumkur, India
- **Seshadripuram PU College** Feb 2020 - Apr 2022
Pre-University (PCMB) | 93% Aggregate
Tumkur, India
- **Chirec Public School** Graduated 2020
High School (SSLC) | 95.84% Aggregate
Madhugiri, India

TECHNICAL SKILLS

Languages: Java, C, JavaScript, HTML, CSS, MySQL
Frameworks: Node.js, Express.js
Concepts: Operating System(OS), Software Testing, DBMS, DSA, CN
Databases: MySQL, MongoDB
Tools: Git, VS code

PROJECTS

- **Secured Evidence Chain Blockchain** github.com/vinay2522/Hackcult
 - Developed a blockchain-based web app to securely store and track digital evidence using Ethereum, Solidity, and IPFS
 - Implemented AES/RSA encryption for restricted access and smart contracts for immutable, auditable logs
 - Enabled role-based access control and integrated React.js, Web3.js, and Node.js for full-stack functionality
- **AI-Based Ambulance Dispatch Prediction** github.com/vinay2522/Temp-mini_project
 - Reduced ambulance dispatch delays by 60%+ by integrating ML-driven emergency demand forecasting (Python, scikit-learn)
 - Developed full-stack web app using MERN stack with dynamic ambulance allocation and real-time user location tracking
- **Plant Disease Detection Model** github.com/vinay2522/plant_disease
 - Built CNN using TensorFlow/Keras to identify plant diseases from leaf images with high accuracy
 - Integrated model into user-friendly web interface using HTML, CSS, JavaScript, and Flask
- **ServerLess URL Shortener** AWS URL Shortener
 - Built serverless web application to shorten long URLs using AWS Lambda, API Gateway, S3, and DynamoDB
 - Implemented unique short code generator and redirect mechanism with custom domain routing

ACHIEVEMENTS

- **3rd Place in Hack Kshetra National-Level Hackathon (2024):** Secured recognition in cybersecurity domain, competing against top-tier teams nationwide (VVCE College, Mysore)
- **Hackathon Participation:** Demonstrated problem-solving and innovation in 7+ hackathons (SIH 2024, Hack Kshetra, etc.)

CERTIFICATIONS

- **Data Structures & Algorithms:** GeeksforGeeks (GFG)
- **Full Stack Web Development Bootcamp:** NullClass
- **Java Programming Masterclass:** Udemy
